

MadVue 2026 Recap - Pop Quiz

10 questions / 20 seconds each / fair for FE, BE, QA and PM: every answer was on a slide, in a demo, or in a meme.

1. Share a link and your teammate lands on exactly your screen. Eduardo calls this the URL's...

- A) Teleportation
- B) Telepathy
- C) Time travel
- D) Tunneling

2. In our app today, when you change the filters, the URL...

- A) Updates instantly
- B) Updates after 5 seconds
- C) Doesn't change at all
- D) Becomes longer

3. Build-tools history: which tool came FIRST?

- A) Vite
- B) webpack
- C) Rolldown
- D) Oxlint

4. The new toolchain is 10-100x faster mostly because it's rewritten in...

- A) Python
- B) Java
- C) Excel macros
- D) Rust

5. In the adaptive-UI demo, the AI is only allowed to build screens from...

- A) Any HTML it likes
- B) Approved building blocks
- C) Screenshots
- D) Comic Sans

6. Eduardo's 5-minute review of Ahmet's qpick found the missing guarantee:

- A) More colors
- B) A better logo
- C) Read it & write it back - nothing changes
- D) Fewer dependencies

7. In formwerk, the accessibility (ARIA) attributes are...

- A) A checklist per component
- B) Optional
- C) QA's problem
- D) An output you get for free

8. Nico's ladder: are our dashboards truly live today?

- A) Yes, always
- B) No - they re-ask every 1-3 minutes
- C) Only on Fridays
- D) Only the dark-mode ones

9. Daniel Roe's one value for Nuxt going forward:

- A) Tokens come first

- B) Ship faster
- C) People come first
- D) Rewrite everything in Rust

10. The official relevance-level benchmark photo features Bill Gates and...

- A) Evan You
- B) Eduardo
- C) Daniel Roe
- D) Arda Turan

Answer key

Presenter copy - keep face down until the podium.

#	Answer	Note
1	A) Teleportation	<i>Time travel is the OTHER superpower - back/forward = free undo.</i>
2	C) Doesn't change at all	<i>That's why copied links don't share what you see - yet.</i>
3	B) webpack	<i>2012 - the bundler era: config hell and coffee-break builds.</i>
4	D) Rust	-
5	B) Approved building blocks	<i>It can't invent block #5 - that's the whole safety model.</i>
6	C) Read it & write it back - nothing changes	<i>Idempotency - otherwise the URL flickers and history fills with junk.</i>
7	D) An output you get for free	-
8	B) No - they re-ask every 1-3 minutes	-
9	C) People come first	<i>CONTRIBUTORS.md > AGENTS.md</i>
10	D) Arda Turan	-
